### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Replace the Abstract page with the following:

--The invention relates to a process for increasing the range of production of an installation for cold rolling of metallic strip, consisting of at least two rolling stands operating in tandem. According to the invention, at least one of the rolling stands is equipped with means of converting the stand configuration, while keeping the same means of applying the rolling force, in order to have at least two configurations available, each corresponding to one production range, and the configuration of said convertible stand is selected to match the data of the product (M) to be rolled, thus allowing the production range to be increased. --

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The limitations the specific method steps and structural features required by claim 35 are not anticipated or obviated by the prior art of record, specifically prior art of record fails to teach a convertible stand which has a lay out of back-up lugs as claimed in claim 35. For example, JP 63-13603 discloses a convertible stand however the lugs of the intermediate rolls are not offset toward the rolling

plane in either the 4-high or 6-high configuration, but rather away from the rolling plane and there would be no motivation to reconfigure said lugs and chucks to meet the limitations of the claim. Furthermore the application is allowable for the reasons set forth by Applicant in the remarks filed with the response dated 12/15/2006.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
